

# Offsight

MANAGING PRODUCTION ON LARGE PROJECTS WITH OFFSIGHT

## Panel Manufacturer Wall-Panel Prefab Utilized Offsight to Eliminate Paper and Better Manage Commercial Projects

Companies who manufacture building products for major commercial projects must meet rigorous quality control standards and have a reliable production process that can meet the project owner's delivery deadlines.

Learn how Offsight's software and features set us apart and are uniquely situated to help our customers meet their commercial project requirements.

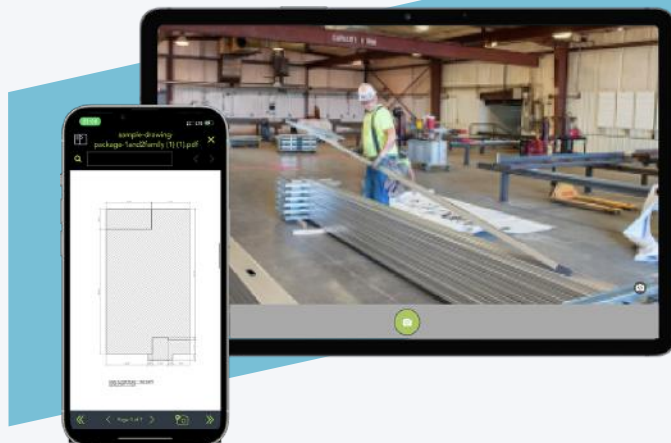

### Real-time Production Tracking & Notifications

Ensures product deliveries stay on track to meet project deadlines.

### Quality Tracking & Image Capture

Documents & reports non-conformance issues, shortages and defects.

## Daily Reporting & Owner Access

Allows for secure sharing of daily reports with main project stakeholders.

## Analytics Dashboard

Tracks production performance for operational improvement and excellence.

“Offsight’s software is a must have for building product manufacturers that want to target large projects and have to maintain rigorous quality and production standards. Their software is easy to set up and deploy and scales seamlessly with our growing business, across our workforce, production lines and factories.”

Wall-Panel Prefab
