Seamless Collaboration With Stakeholders

In what ways has Offsight helped improve collaboration with your third party inspectors and project stakeholders? How has this benefited your business and growth?

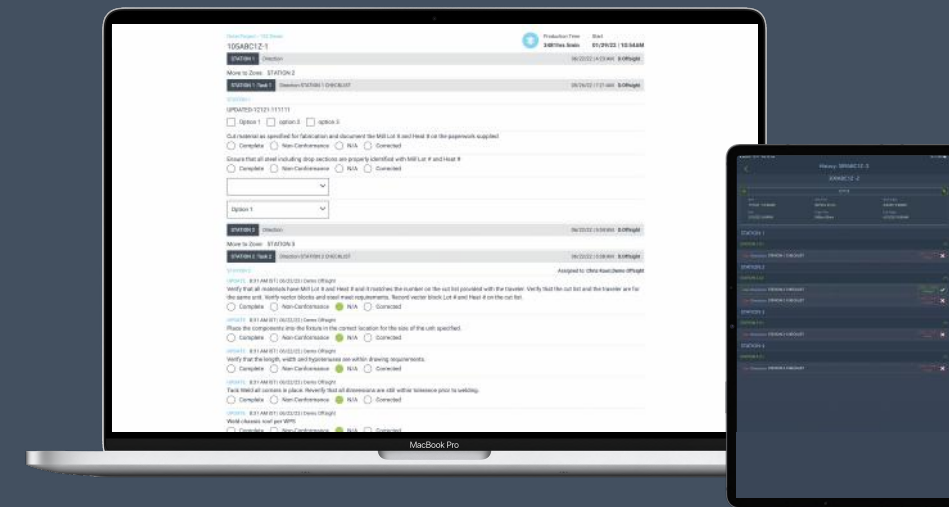

Robust Functionality & Feature Set

Your software should cover multiple elements of factory operations and should be rapidly growing their feature set to capitalize on industry best practices and knowledge.

Production & Quality Tracking

Track production progress and quality in real-time.

Factory Reporting & Auditing

Offsight provides updates to execs and 3rd parties.

Labor Tracking & Timesheets

Track your employee labor hours from the factory floor.

Materials & Inventory Management

Maintain inventory control and avoid shortages.

Offsight Releases Product Enhancements Consistently

Interested In Learning More?

Learn why some of the fastest growing manufacturers in the industry have turned to Offsight to streamline and manage their quality, reporting and inspection process.

"Our partnership with Offsight will be a huge value-add for ICC NTA's residential and commercial off-site clients. Our inspectors can verify building code conformance with real-time collaboration with our clients."
