

**Addressing the CWTA Mandate
Through a Digital Quality Solution**

What The CWTA In-Plant Qualification Program Mandates [↗](#)

In-Plant Inspections

Multiple, consistent, and recorded inspections on sampled trusses at points in production and during yard storage.

Non-Conformance Inspections

All non-conformance, assembly, and quality issues recorded and rework tracked and documented.

Outside Party Audits

Full plant audits twice a year are required for full documentation and process review.

Documentation Requirements

All documentation is stored for a minimum of 5 years.

Offsight Addresses All Requirements Through an Easy-to-Use Digital Solution

In-Plant Inspections

Easily record inspections over multiple truss products using a customizable digital checklist, and take photos instantly for visual verification.

Non-Conformance Inspections

Fully document non-conformance issues for rework, track all rework from start to finish, and all data is saved and exportable to PDFs and CSV.

Outside Party Audits

Instantly and securely share all reports digitally with your third-party inspector for streamlined factory audits and reviews.

Documentation Requirements

Documentation is stored digitally and securely down to the individual truss checklists where inspectors can retrieve them at any time.

What Our Clients Say

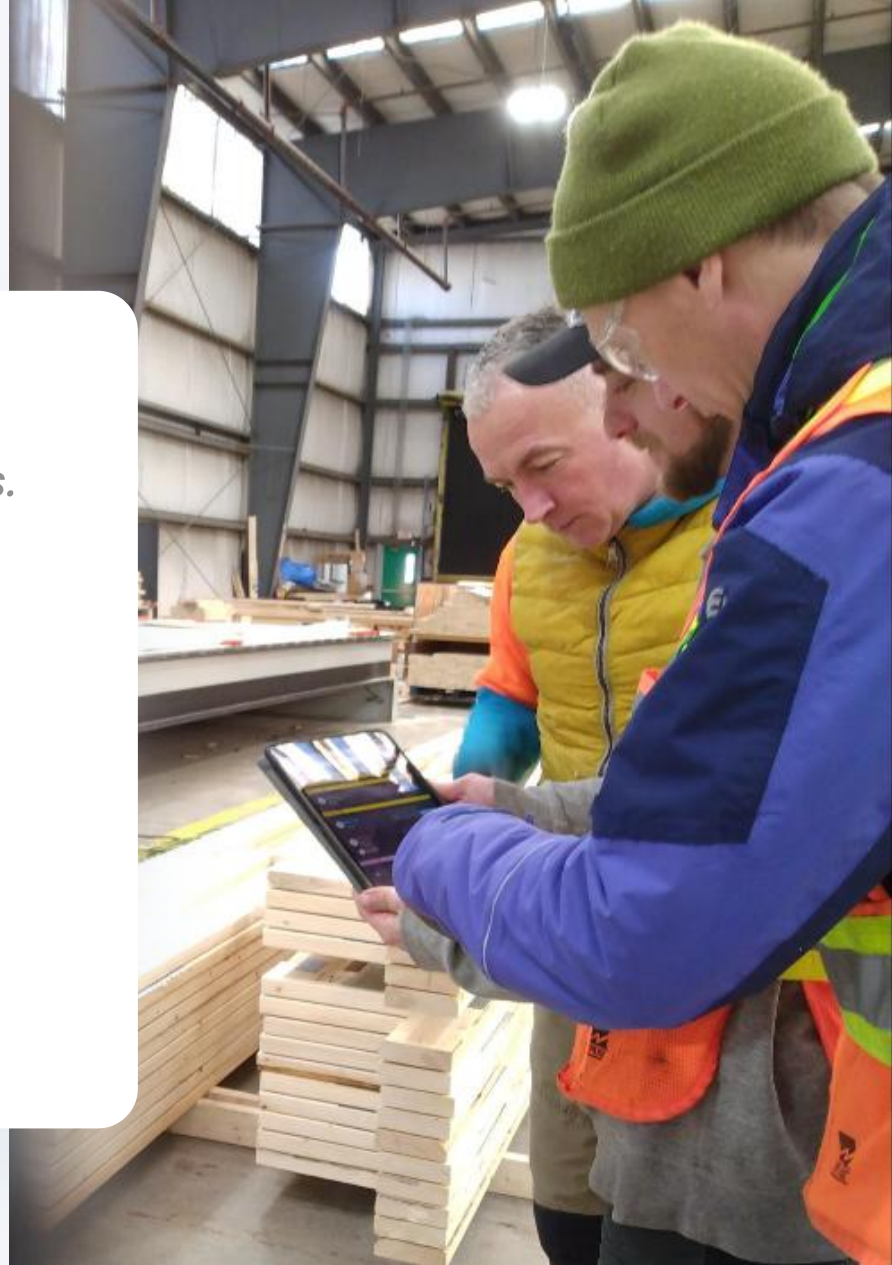

“We manufacture a variety of critical components including wall panels, roof trusses, and floor cassettes. Offsight is quickly becoming our go to solution to manage all our factory projects and the entire end to end production process.”

Cameron Davis, Financial Controller

EASTCUT
WOOD BUILDING SOLUTIONS

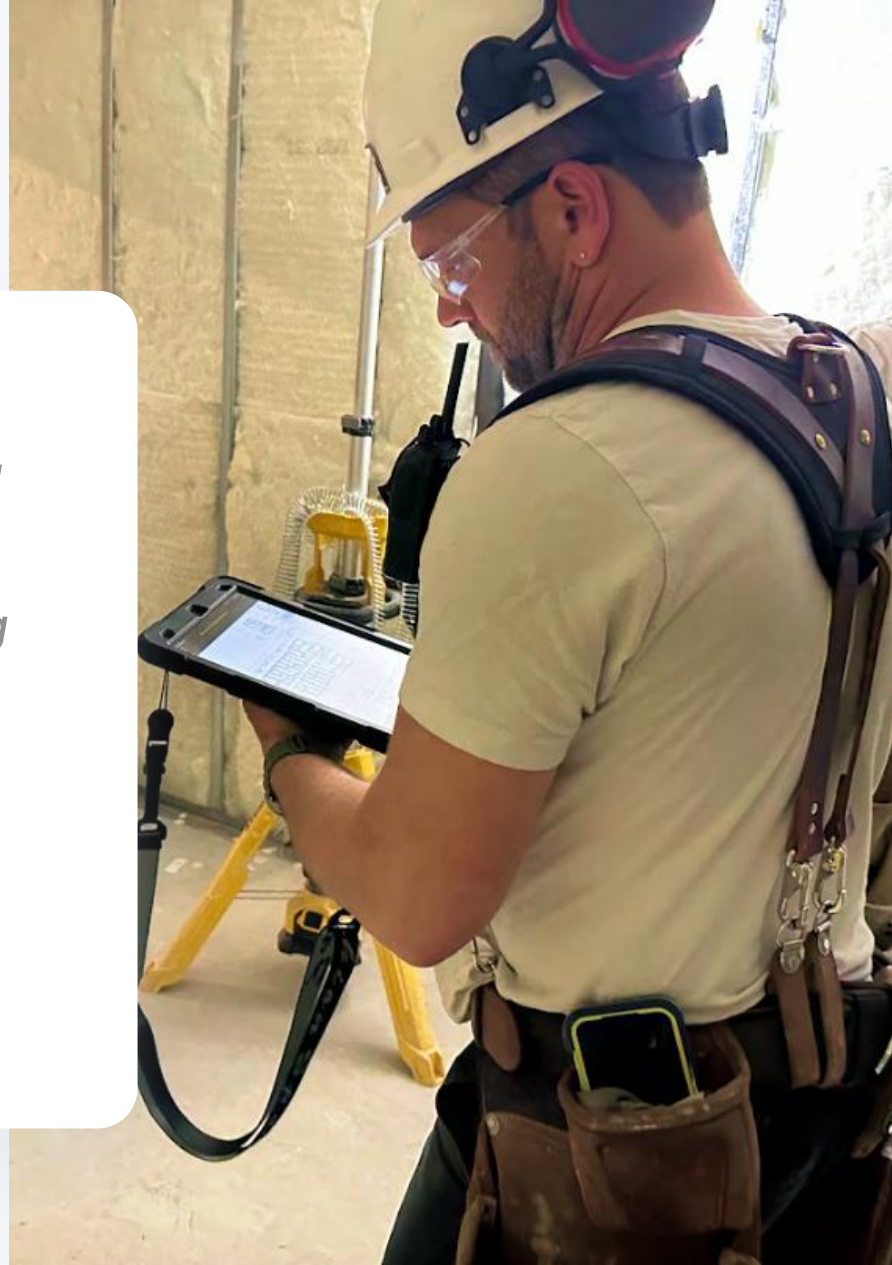

What Our Clients Say

“Our business is focused on quality, time and more importantly the end user. Offsight is one of the crucial tools we now use to help; meet high production demand, manage crucial elements of quality tracking and conformance reporting.”

Kairin Roth, Project manager

Our Full Product Suite

We provide solutions to manage your entire factory operations and offsite projects.

Production & Quality Tracking

Track production progress and quality in real-time.

Factory Reporting & Auditing

Offsight provides updates to execs and 3rd parties.

Project Report					
Weekly Analytics Report CW04 / January 22 - January 28					
Project Name	Complete	Net Complete	Total	Current % COMPLETE	Last Weeks % Complete
Johnson St	776	106	882	85%	87%
Dash	136	0	137	99%	99%
Liberty	103	0	146	100%	97%
